

Student Survey

Please fill in all the information and return to the TA at the end of today's class.
Please write **legibly**.

Name: _____

Circle your status: Undergraduate, Masters, PhD

How long have you been in the program? _____

E-Mail address: _____

(These are only for the use of the staff and student mailing list.)

What is your major or department (e.g., UMass CS, ECE, etc.)?

Circle any classes you have passed (if any):

CS311 (algorithms), CS377 (OS), CS415 (security), MATH471 (number theory)

What other relevant coursework have you completed (if any)?

Select your top two skills from the following four choices:

- Team leading/organizing
- Designing systems

- Coding/implementing
- Writing term papers

Why do you want to take this course?

(turn page over)

Are you part of the Information Assurance concentration? Are you interested?

Select project topics that appeal to you and/or list your idea(s):

- Secure operating system services
- Performance measurements of cryptography
- RFID security or secure hardware
- Secure networking or telephony
- Policy and law in cryptography
- Experimental studies of users and security
- Your idea:

If there are people you would prefer to work with or not to work with, please list names and preferences here.

We will assign you to a team of 3–4 people based on this survey.
